GN Making Life Sound Better

Hearing feels like second nature

Everyone's ears and hearing are unique. That's why we always aim to make using hearing aids feel and sound as natural as possible, guided by how we instinctively interact with the world. With ReSound ONE™ you can forget you're wearing hearing aids because our designs adapt to fit your needs and situations – individualised for you.

Hear like no other with ReSound ONE.

HANDS-FREE CALLS

Enjoy the freedom of hands-free phone and FaceTime calls for iPhone and iPad** whatever you're doing. Simply tap the button on your hearing aids to answer calls.

UNIQUE ERGONOMIC DESIGNS

Our designs sit low on the ear to improve hearing comfort and ensure the correct placement of the mics for great performance.
